PROFESSIONAL SUMMARY

Currently pursuing a **Master's in Data Science and Artificial Intelligence** at Evolve. Graduate in **Game Design and Development**, with a strong foundation in programming, software architecture and analytical problem-solving. Skilled in **Python**, **SQL** and **Power BI** for data preparation, analysis and visualisation, with a focus on applying these skills to predictive modelling and **AI solutions**.

Combining a software development background with knowledge of Python, SQL, Machine Learning and AI, focused on data analysis, intelligent applications and developing innovative technology solutions.

PROJECTS

Employer Brand NLP — Analysed bank employee reviews using DistilBERT and BERTopic.

Hotel Cancellation Prediction — Trained LightGBM with temporal validation (AUC: 0.881).

Generative AI Agent — Python and Gemini project scaffold; currently in development.

Fraud Analytics Dashboard — Banking fraud analysis using Python, SQL and Power BI.

Netflix Data Warehouse — Python and SQL warehouse with a star schema and data validation.

The Last Stronghold — Survival game with AI-driven combat; Bachelor's Thesis (9.2/10).

La Nova Dolce — Responsive React restaurant website with a mobile-first design.

Personal Cloud Gallery — React and Node.js platform with authentication and MySQL storage.

PROFESSIONAL EEXPERIENCE

Freelance Frontend Developer · La Nova Dolce | Jan–Apr 2026

- Built a responsive restaurant website using HTML, CSS and JavaScript.

QA Tester Intern · LollipopRobots | 2024–2025

- Performed functional and regression testing, reporting gameplay, AI and performance bugs.

Water Sports Instructor · Bewater Sports Santa Pola | 2018–2026

- Led paddle surfing, sailing and windsurfing sessions, managing groups and ensuring safety.

Hospitality Assistant · Restaurant and Pizzeria | 2017–2025

- Managed customer service, orders and cash transactions in a fast-paced environment.

Technical Skills

Data and BI: Python, SQL (MySQL), Power BI, data cleaning, exploratory analysis and data modelling.

ML and NLP: scikit-learn, LightGBM, XGBoost, Transformers, PyTorch and BERTopic.

Development: HTML, CSS, JavaScript, React, Node.js, C++, C#, Java and Unity.

Tools and Practices: Git, GitHub, Jupyter, VS Code, Excel, UI/UX and software testing.

Education

Master's in Data Science · Evolve | *2026 (Apr - Present)*

Bachelor's in Game Design and Development · Universitat Jaume I | *2020–2025*
